About Us

The Vision for VendeeX is to **empower buyers and support communities in a sharing economy.**

Reference to founder = Olga (not darryl)

Our Founder, Darryl, came up with the idea for VendeeX when responders to Australia's worst bushfire season put out calls for donations of clothes, shoes, blankets and toys. There was no effective way for people and communities to seek help for the things that they needed to overcome disaster and rebuild their lives. Investigating further, Darryl identified a growing need for people in all walks of life to be able to place "wanted ads" for the things that they need on a daily basis.
Wanted Ads as an eCommerce platform is the last piece of newspaper classified ads to move online.

VendeeX is a female led startup, and operates from Singapore and Australia to serve a global market.

VendeeX operates from Singapore and Australia to serve a global market.

vendeex

How VendeeX works

I need something:

On VendeeX you can buy, borrow, rent or seek a donation for the things that you need.

VendeeX is a platform for the buyer (vendee). Sellers (vendors) do not advertise on VendeeX, the seller must make an offer to each Request submitted by a buyer.

As the buyer you submit a Request, just like posting a wanted ad. Complete all the details, provide as much information as possible, indicate how much you are able to pay, and then wait for sellers to make offers.

I have things to sell:

As a vendor you can search the Requests which have been posted by VendeeX members, and make Offers where you have product that the vendee is looking for.

You can search by product type using our categories, or you can search by geography (location or suburb).

Charities and Donations:

VendeeX was created in response to the terrible bushfires that ravaged Australia in 2019 and 2020. Charities at that time called on the public to donate things other than cash. They were looking for blankets, clothes, shoes, water bottles, books and toys for children – amongst many other things.

VendeeX supports donations-in-kind for all members, and allows Registered Charities to create Communities to post Requests.

Communities:

VendeeX is built around the idea of Community. Communities can be the suburb where you live, the school your children attend, the sporting club, or religious organisation. Any group that has a special interest can create a community and buy, sell and trade within that community.
Communities can be open or closed (private).

Start your own community!
