Sub-category

Apple Electronics

Title/Heading*

iPhone X 0/80

Description of item*

Also known as Apple iPhone 10, Apple iPhone Ten

47/256

I want to:

Buy Borrow/Rent Seeking Donation

Brand

Apple 5/40

Condition:

New Used

Location/Postcode

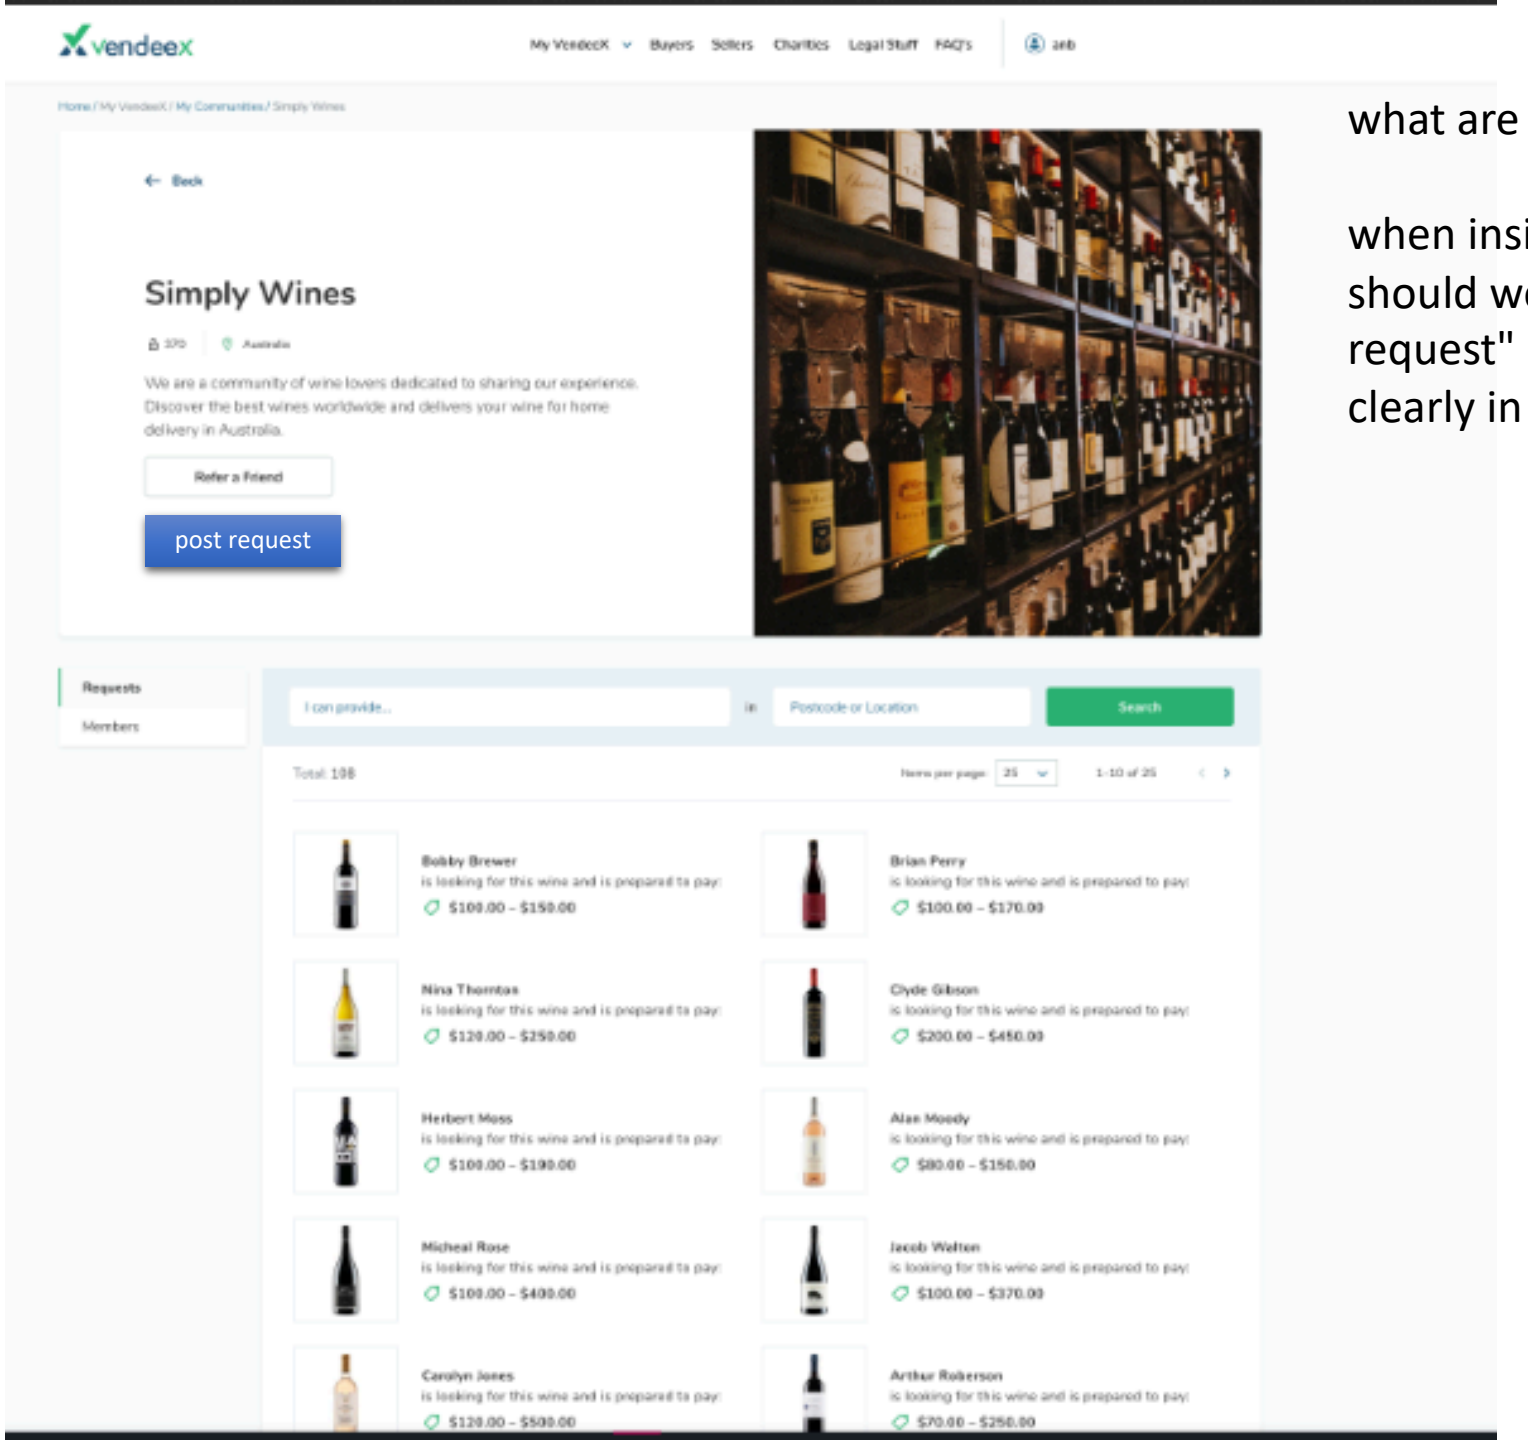
Australia

I have prepared to pay for this item:

when creating a request from with a community – the fields

* community
* category
* subcategory

would be pre-populated based on the details registered when the Community was created



what are your thoughts?

when inside the community, should we position the "post request" so that it is more clearly in the community?
